PROFESSIONAL SUMMARY

Revenue Operations specialist with experience across the full GTM stack — CRM administration, pipeline management, forecasting, and revenue reporting for B2B SaaS. Currently owning RevOps at Deepki (Paris), a €6M ARR ESG SaaS scale-up, driving data accuracy, funnel visibility, and process efficiency across Sales and Marketing. Skilled at turning messy CRM data and siloed GTM processes into clean, scalable revenue systems.

PROFESSIONAL EXPERIENCE

Revenue Operations Specialist (CDD) – Deepki – ESG SaaS

Aug 2025 – Present | Paris, France

- Owned end-to-end revenue reporting for a €6M revenue region — building dashboards in Salesforce, Excel, and Google Sheets to track ARR, pipeline velocity, win rates, and CAC across GTM teams.
- Boosted forecasting accuracy by 15% through structured pipeline hygiene processes, stage-gate definitions, and weekly forecast review cadences with Sales leadership.
- Uncovered a 45% regional growth disparity through Revenue Analytics, directly prompting a QBR restructure and reallocation of sales resources across territories.
- Performed win-ratio, win/loss, ROAS, ROI, and CAC analyses on quarterly field marketing events, contributing to a 40% increase in qualified lead generation.
- Administered HubSpot and Salesforce as Super Admin — managing objects, properties, fields, user permissions, workflows, and lifecycle stages, improving CRM data accuracy by 21%.
- Achieved 100% adoption of new marketing pipeline across Sales and Marketing leadership by driving stakeholder alignment, resolving blockers, and ensuring full ROI visibility.
- Reduced 10+ hours/week of manual reporting by automating data flows across HubSpot, Salesforce, and Google Workspace using n8n and Google Apps Script.
- Built a Gong conversion rate dashboard covering funnel metrics, win rates, and conversation intelligence signals to support sales coaching and deal review processes.
- Designed a weekly pipeline PowerPoint automation from Salesforce exports, eliminating 3 hours of manual slide-building per week for senior leadership.

Sales & Growth Intern – Growth Student – EdTech

May 2024 – Sep 2024 | Nice, France

- Built and managed a B2B pipeline of 150+ potential clients using CRM systems, aligning weekly KPI reporting with growth forecasts.
- Collaborated with the CEO to refine ICP and commercial pitch strategy, resulting in a 30% uplift in prospect response rates.
- Mapped full sales funnel from outreach to close, identifying drop-off stages and proposing sequence adjustments that reduced average sales cycle by 2 weeks.

KEY REVOPS PROJECTS

Pipeline & Conversion Rate Dashboard [Gong · Salesforce · Google Sheets]

Built a live dashboard tracking funnel conversion rates, stage-by-stage win rates, and rep-level performance signals — used weekly by Sales leadership for pipeline review and coaching.

Automated Lead-to-Demo Pipeline [HubSpot · Salesforce · Make · Google Apps Script]

Designed end-to-end lead routing architecture from form fill to booked demo — including lead scoring, CRM assignment logic, sequence enrollment, and Slack alerting for the sales team.

Weekly Pipeline Reporting Automation [pptxgenjs · Salesforce · Google Apps Script]

Automated weekly pipeline PowerPoint deck generation from Salesforce exports, saving 3 hours of manual work per week and standardising the data presented to senior leadership.

Slippage Analysis & Sales Forecasting Model [Salesforce · Advanced Excel · Google Sheets]

Built a deal slippage tracker and forecasting model that achieved 98% forecast accuracy over the quarter — identifying at-risk deals by close date drift, stage stagnation, and engagement signals, enabling Sales leadership to take corrective action before month-end.

EDUCATION

Master in Management & MSc Strategy and Consulting – EDHEC Business School, Lille

Sep 2022 – May 2025

- 1 of 2 recipients of the French Government merit scholarship. A+ in Operations Management, Financial Modelling & M&A.

BEng Fashion Technology – National Institute of Fashion Technology, Chennai

May 2021

- GPA: 9.4/10. Hands-on production experience with The North Face and PVH (Calvin Klein, Tommy Hilfiger).
